OVERVIEW

Need to fill larger containers? The A355 has you covered with a weighing platform for pails, drums OR both!

The A355 holds all the advantages of the A300, including the modular, single-fastener valve change, single-point dispensing and automated valve cleaning.

The multi-scale option provides the best combination of capacity AND precision.

The touch screen interface is easy to navigate and comes complete with the industry's best features for easy dispensing, recipe book management, inventory management and reporting.

The A355 is the perfect solution for any high volume production that requires a high degree of reliability and fast throughput for filling pails or drums with the very best precision and repeatability.
