OVERVIEW

Need more stations? Need to source from drums or totes? The A255 is the answer. The A255 delivers all of the speed, precision and operational convenience of the A200, but adds the versatility of HMJ tech's modular pump stands. Source from any number of pails, drums or totes and arrange to suit a room of any size or shape.

The A255 is our most affordable modular machine. The all-stainless steel frame is sturdy and easy to keep clean.

The touch screen interface is easy to navigate and comes complete with the industry's best features for easy dispensing, recipe book management, inventory management and reporting.

The A255 is the perfect solution for most printing operations and other facilities with a wide range of dispensing needs. The A255 balances great features with affordability. With 24 station capability, hazardous or non-hazardous options, fully automated cleaning and single-point dispense, the A255 is a value-packed performer that rivals machines of twice the cost.
